at Fifth Ave. and 45th St.

Terms Of Sale

1. By sending in a List of Bids, The Bidder agrees to the Terms of Sale listed herein.

2. The Closing Date is February 21, 1958. Send Late Bids Airmail.

3. This is an AUCTION SALE — not an APPROVAL SALE. **No Lots may be returned, except by Written Permission.** If an error has been made in the Catalog, such permission will be granted. Such permission will **NOT** be granted for a minor difference of opinion in grading the condition of a coin (for example — the question of whether a coin is EF or VF+). The cataloguer has tried to be very conservative in grading.

4. All bids are Per Lot as Listed in the Catalog.

5. Acceptable credit references, or a 25% cash deposit, are necessary to assure entry of your bids.

6. There is no charge or commission for your bids. Insurance and mailing charges will be added for lots sent to successful Bidders.

7. Bids are entered as received. Mail your Bids promptly. The Highest Bidder will receive each lot at the normal advance over the next Highest Bid. When similar Bids are received, the first shall have preference. If a duplicate Lot exists, the Two Highest Bidders shall each receive the Lot at the normal advance over the Third Highest Bid.

8. Lots will be sent to Successful Bidders during the week following Closing Date. Remittance must be made on receipt of Lots you buy. The right to demand payment before shipment or to ship C. O. D. is reserved.

9. Lots delivered in New York City are subject to 3% City Sales Tax.

10. Estimates of Value and further information on any Lot will be supplied, if time permits. Lots may be inspected during the week before the closing date.

11. Bidders from outside the United States may make arrangements to use certain Foreign Currencies — based on their value here.

12. If you want a List of Prices Realized at $1.00, mark your Bid Sheet Accordingly. After the close of the sale, the Catalog and list of Prices Realized will be $2.50.

TO THE COLLECTOR

After a long period of research - after acquiring collections, accumulations and small lots - and after voluminous correspondence with leading collectors, curators and dealers interested in this fascinating series, there is here presented to you a combination SALE and REFERENCE CATALOG of the SILVER DOLLARS OF INDEPENDENT MEXICO. Everything definitely known to exist is listed, but **only the starred items in bold face type are offered for sale.** The others I do not have at present.

Particular credit must be extended to the following individuals whose help enabled me to determine what is here listed:

THEODORE V. BUTTREY
WILLIAM CLARK
HENRY GRUNTHAL
CLYDE HUBBARD
KENNETH KEITH
HITOSHI NAGAI
JOHN J. PITTMAN
DR. ALBERTO F. PRADEAU
FRANCISCO A. RIESTRA
FLEURNOY C. SCHNEIDER
HARRY SHUHART
RAMON TORRES FUENTES

It is impossible to isolate the specific contribution of each nor do I wish to single out any for specific mention save for Dr. Pradeau, the pre-eminent authority on the coinage of Mexico, who is now preparing a new cyclopedia on the complete coinage of the Mexican Republic, and Mr. Hubbard who double-checked many major Mexican collections in order to make this more complete.

Additional credit and appreciation must be given to my amanuensis, Beverly S. Elling, for her patient and understanding efforts.

ESTIMATES OF RARITY AND VALUE

The cataloguer feels that an arbitrary placement of a fixed estimate on each lot would be too difficult and also too frequently it would not be accurate. Therefore the following schedule was adopted, whereby a general estimate of rarity and a value range for that degree of rarity could more easily provide for adjustments due to condition and also the feeling of an individual as to the worth of a particular specimen. The first group, which has no degree of rarity expressed, are current issues, modern issues which are readily available or older issues which are not hard to find. Considering condition, one should not have to pay much more than five dollars for any one, and considerably less for modern and current issues, especially those which are now minor coins. For all other issues, except an occasional pattern, the following five ratings are established and an estimated value range is added for each one.

R - Scarce	$ 5.00	to	$ 15.00
RR - Rare	10.00	to	25.00
RRR - Very Rare	20.00	to	50.00
RRRR - Extremely Rare	50.00	to	100.00
RRRRR - A Great Rarity	75.00	to	UNLIMITED

UNLISTED ITEMS

If you have in your personal collection dollar size coins which are not listed in the series scheduled here, please, please let the cataloguer know. Only thus can we hope to ultimately have a definitive catalog.

NOTE — NEW ADDRESS

THE CATALOGUER HAS JUST MOVED HIS OFFICES TO THE CENTRAL AREA OF NUMISMATIC ACTIVITY IN NEW YORK CITY. YOUR VISITS FOR INSPECTION OF LOTS AND OTHER INTERESTS WILL BE MOST CORDIALLY WELCOMED.

ITURBIDE COINAGE

There are many die varieties of these issues, both in figures and in lettering. The varieties in the bust sizes, neck truncations and hair styles; the varying number of cactus leaves plus buds thereon; the position in the legends to which the neck points or to which the crown on the eagle's head points are all die varieties for which the collector can enjoy good hunting. They are not included here. In order to establish the major combinations of dies, study the two coins illustrated. They will be referred to in the descriptions.

N. B. The Mexico Mint 1824 Hook Neck has been and is being extensively counterfeited in Mexico, from whence I received four identical copies, very well made, but the edge milling is like our present U. S. silver, instead of the herringbone design of the originals. Better check your own specimens.

REVOLUTIONARY ISSUES

In addition to the CW and MWC numbers for the coins, the HW numbers are from the HOWLAND WOOD monograph published in 1928 by the American Numismatic Society, and the SG numbers are from the supplementary notes to this monograph published by J. SANCHEZ GARZA in 1932.

More detailed descriptions of the coins may be found in the monographs cited above.

While this revolutionary period saw the start of the decline in value of the PESO, and consequently the issuing of multiple peso pieces, the cataloguer has listed all pieces with the value of one peso or more (except those struck in gold).

Practically all of the Revolutionary issues offered are from Mexican Collections.
